Among the prized reviews in a scrapbook kept by Ruth Christie, appearing with her brother at Loew's Lyceum the first half of the week, is a criticism of their act done in French. Several years ago the team played one of Marcus Loew's Canadian theaters. In the city is a French paper. The critic on this paper unloosed many favorable adjectives and expressions in commenting on the ability of this team's musical ability. For neary nine years the Musical Christies, as they are billed, have been entertaining patrons of Loew's theaters. Miss Ruth plays the French horn and her brother the saxophone. Make Rich, Red Blood

You probably know that your blood is composed of red and white corpuscles. In perfect health the red corpuscles predominate. Then you have ruddy cheeks and a pink, healthy skin. Plenty of food and good digestion are necessary to make the rich, red blood that keeps you strong.

Digestive upsets and stomach trouble quickly result in the white corpuscles gaining the mastery in your blood, which becomes thin and watery. Then you get weak, rundown, alling and nervous. Your skin gets pale.

Pepsinol will tenrich and purify your blood, keep it red and strong, by correcting your digestive troubles.
